Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-3, 5-9, 12-18, and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Capelli U.S. Patent 3,846,199 in view of Rinehart U.S. Patent 5,735,895.

Capelli disclosed an artificial eye comprising at least four preformed components (16, 18, 20, 22) fused together; the ring (16) as shown in Figs. 1 and 5 is considered an outer ring (applicant's claim 30); the components comprising a base component (12), a pupil component, an iris component, and a cornea component (col. 4, lines 6-8); the components are colored (col. 3, lines 30-34); the base (12) having an outer surface, an inner surface (see Fig. 1). It is noted that Capelli failed to teach the components are made of glass as set forth therein. However, an artificial glass eye is very well known in the art as evidenced by Rinehart (see the specification). Therefore, it would have been to substitute the plastic materials of the components of Capelli with the glass material as taught by Rinehart because the substitution of one known element for another would have yielded predictable results to one of ordinary skill in the art at the time of the invention for the purpose of providing a more realistic looking artificial eye.

Regarding claims 8, 9, 15-18, it is noted that the combination of Capelli and Rinehart failed to teach various decorative features as set forth therein. However, such

features are merely for decorative purpose and it would have been a matter of design

choice to incorporate any desired decorative material and/or color to enhance the

aesthetic appearance of the artificial glass eye.

Allowable Subject Matter

Claims 4, 10, 11 are objected to as being dependent upon a rejected base claim,

but would be allowable if rewritten in independent form including all of the limitations of

the base claim and any intervening claims.

Response to Arguments

In response to applicant's argument that the Examiner has not articulated the

reasoning which supports the rejections of claims 1-3, 5-9, and 12-18 under 35 U.S.C.

103, such argument is not deemed to be persuasive in light of the above explanation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3711

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kien T. Nguyen whose telephone number is (571) 272-4428. The examiner can normally be reached on 7:30 AM-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eugene Kim can be reached on (571) 272-4463. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
